

Course description for Alvgrim – fantasy, adventure & roleplay

Alvgrim is a fantasy world created by drama teacher Aseem Svedberg (live action roleplay) and writer Arunima Rosenblad (the children´s book [Alvgrim - Trollsländans folk](#)).

We mix **Alvgrim´s** world of fantasy with real history from the places where we work (in this case Stockholm).

The children participate in the creation of stories, characters and adventures (live action roleplay).

The activity will take place both indoors and outdoors, and is largely based on the participants own creativity and ability to cooperate. **Alvgrim** provides costumes and other material required to create the roleplay/adventures.
